TARGET AUDIENCE

Fellows, and GI nurses.

This course is designed for gastroenterologists, surgical endoscopists, gastroenterology and devices relative to the day’s topics, ie FES or bariatric.

The course registration. Each session is a half-day in length and focuses on techniques

We invite you to join us for this unique, 2-day hands-on endoscopy course in beautiful Miami Beach. State-of-the-art lectures by leaders in the field cover technique and cutting-edge advances in GI endoscopy for both flexible endoscopic surgery, endoluminal, and bariatric endoscopy. Topics include primary obesity devices (balloons, sleeves, aspiration therapy, and endoscopic suturing), post-bariatric complications, endoscopic suturing techniques, EUS in the bariatric patient, full-motionendoscopic, endoscopic submucosal dissection, therapeutic EUS, ablation, and more!

Two hands-on training sessions are also available to attendees as an add-on option to the core course registration. Each session is a half day in length and focuses on techniques and devices relative to the day’s topics, ie FES or bariatric.
